

# The Complete AutoBlogging System Ver 2.0

## **IMPORTANT NOTICE:**

**You Are NOT Allowed To Resell This Guide!**

**You Are NOT Allowed To Share Or Give This Guide Away!**

**You Are NOT Allowed To Host This Guide On Your Website!**

**You Are NOT Allowed To Duplicate The Content In This Guide!**

## **Overview**

So you started a WordPress blog and thinking of making money out of it. However, you would not want to spend your whole life updating it. We know that search engines love websites with new content every day. However, you may not have the time and effort to update or maintain your blog.

### **Revolution Of Auto Blogging**

The revolutionary idea of auto blogging is to help you by creating new articles for your blog and auto-tag them for easy search. The articles will also be auto-categorized as they are created and included into the category you defined.

In version 2.0, I will also share with you on how to setup your auto blog to social bookmark your articles automatically to popular bookmarking and networking sites like mixx, stumbleupon, delicious, facebook, propeller, technorati, digg, furl, reddit, spurl and twitter using a powerful web service, OnlyWire.

## Requirements Of An Auto-Blog

1. Hostgator Paid Hosting (Only Hostgator paid hosting works with auto-blogging, other web hosts will simply suspend your account without reason). This has been tested before.

Sign up a hostgator account [here](#). You can sign up any plan you like. It doesn't matter.

2. WordPress version 2.6.5 & above

3. Auto Blogging WordPress plugins

A) [Unique Article Wizard](#) (Post text articles automatically into your blog daily - with full control over categories)

B) [WP VideoTube](#) (Post YouTube videos automatically into your blog daily based on keywords you define)

C) [WP Auto Tagger](#) (Create tags automatically based on your post content)

D) [Platinum SEO Pack](#) (Complete SEO solution for your Wordpress blog)

E) [Google XML SiteMaps](#) (Generate a sitemaps.org compatible sitemap for your WordPress blog which is supported by Ask.com, Google, MSN Search and YAHOO.)

F) [WordPress Related Posts](#) (Generate a related posts via WordPress tags, and add the related posts to feed.)

3. Auto-Social Bookmarking WordPress plugins

A) [WP Onlywire Multi AutoSubmitter](#) (Submit all your posts to many different social bookmarking and networking websites, including Digg, Reddit, Delicious and Mixx, through the Onlywire social bookmarking service automatically)

## Instructions

1. Register for a paid hosting account with [Hostgator](#). Auto blogging ONLY works with Hostgator paid hosting (any plan will do).
2. Start a new WordPress blog (version 2.6.5 and above).
3. Download all the WordPress plugins mentioned above.
4. Upload all the plugins to your webhost cpanel under \wp-content\plugins\ and extract them out accordingly.
5. Go to your WordPress admin panel and activate all the plugins accordingly.
6. In the next few pages, I will elaborate step-by-step on how to configure the auto-blog plugins for them to work.

Note: The screen captures are obtained from WordPress 2.6.5. If future WordPress versions display differently, you need to navigate to the respective plugin configuration page yourself.

# Unique Articles Wizard Plugin Configuration (PART 1)

What is WP Unique Articles Wizard plugin for?

It will auto-feed your blog with new articles every day and publish them accordingly.

- Go to your WordPress admin panel, "Settings", "Unique Articles Wizard". See below screen capture.

## Unique Article Wizard Control Panel

Version 3.0.2

Enter your preferences below, choose the categories for which you want to receive articles, and press the **Update** button. To test it is all working, just click the **"Update & Test"** button and you will immediately receive a test submission. NOTE: when you press the "Update & Test" button your preferences WILL be updated. **"Reset"** restores your settings to what they were when you completed your last update - this is mainly used if you get mixed up changing your category selections. For further help, just hover over any of the question marks or check the [plugin FAQ](#)

**Check this Box to Start Receiving Unique Articles**

**Your Email** (Used only for important announcements, eg security or upgrades - no spam, no sales pitches.)

admin@qualityartlessite.com

**First Name**

Quality

**Last Name**

Articles Site

**Maximum Articles Per Day?** (?)

5

**Automatically Publish Articles?**

(leave unchecked to have them posted as Draft) (?)

**Add Target='\_blank' tag to links?** (?)

**Prefix for Div Class**

(default is blank) (?)

**Assign Keywords as Tags?** (?)

**Include Unique Article Link?** (?)

**Your UAW user name:** (?)

- **IMPORTANT!** Put a "tick" on **"Check this Box to Start Receiving Unique Articles"** to start receiving new articles to your blog.
- Enter "Your Email", "First Name" and "Last Name"
- For "Maximum Articles Per Day", I recommend to set it as "5" for a start. This will prevent search engines from suspecting your blog as "article spamming". You may increase this quantity in future but in a gradual and slower manner.
- For "Automatically Publish Articles", I recommend to "tick" it since you wish to automate your blog.

- For "Add Target=\_blank tag to links", I recommend to "tick" it so that your website readers will not leave your blog completely when they click any link in your article content.
- For "Assign Keywords as Tags?", I recommend to "tick" it so that all keywords that come with the article will be converted to tags accordingly.
- For "Include Unique Article Link?", I would recommend to "tick" it so that the original article can get a backlink from your article. This will benefit them and is rightful since you got your own unique article version from them.

## Unique Articles Wizard Plugin Configuration (PART 2)

Your Website Name: (?)	<input type="text" value="Quality Articles Site"/>
Email Notification Address (leave blank for no email) (?)	<input type="text" value="admin@qualityarticlessite.com"/>
Email Subject Line (helps with filtering your emails) (?)	<input type="text" value="UAW"/>
Exclude These Keywords (Comma separated. No articles with these keywords will be accepted) (?)	<input type="text"/>
<b>MULTI MEDIA SETTINGS</b> These settings allow you to display video, images, and audio in your posts. <b>NOTE:</b> If you receive media you MUST keep the plugin activated in order for the media to be displayed. You can, of course, stop receiving articles just by un-checking the box at the top.	
Enable Video? (?)	<input checked="" type="checkbox"/>
Display Width for Video (?)	<input type="text" value="320"/> px
Font Color for Caption Text (use valid css/HTML color terms) (?)	<input type="text" value="#000080"/>
Font Size for Caption Text (use valid css/HTML fontsize terms, eg 0.8em, 8pt, 10px) (?)	<input type="text" value="0.8em"/>
Video position (?)	<input type="text" value="Left"/>
Enable Audio? (?)	<input checked="" type="checkbox"/>
Audio Position (?)	<input type="text" value="Left"/>
Enable Graphics? (?)	<input checked="" type="checkbox"/>
Graphics Position (?)	<input type="text" value="Left"/>

- Enter "Your Website Name".
- If you wish to get notified by email whenever a new article is published, enter your email address under "Email Notification Address". Otherwise, it is fine to leave it blank.
- Enter your subject line if you wish to get email notification. This will differentiate UAW emails from others.
- For "Enable Video", "Enable Audio" and "Enable Graphics", you may tick them if you wish to have any of those to get published on your blog too. For me, I would tick them.

## Unique Articles Wizard Plugin Configuration (PART 3)

Categories You can exclude keywords for specific categories here. (?)  All

- Affiliate Marketing [exclude keywords](#)
- Blog Make Money [exclude keywords](#)
- Earn Money From Home [exclude keywords](#)
- Earn Money Online [exclude keywords](#)
- Easy Money Online [exclude keywords](#)
- Extra Income From Home [exclude keywords](#)
- Google Adsense [exclude keywords](#)
- Home Based Business [exclude keywords](#)
- Home Based Work [exclude keywords](#)
- Home Job Opportunity [exclude keywords](#)
- Make Easy Money [exclude keywords](#)
- Make Money At Home [exclude keywords](#)
- Make Money Blogging [exclude keywords](#)
- Make Money From Home [exclude keywords](#)
- Make Money Now [exclude keywords](#)
- Make Money Online [exclude keywords](#)
- Make Money Quick [exclude keywords](#)
- Make Money Through [exclude keywords](#)
- Make More Money [exclude keywords](#)
- Making Money Online [exclude keywords](#)
- Money Making Ideas [exclude keywords](#)
- Money Making Opportunity [exclude keywords](#)
- Quick Money Online [exclude keywords](#)
- Start Making Money [exclude keywords](#)
- Uncategorized [exclude keywords](#)
- Work From Home Job [exclude keywords](#)
- Work From Home Opportunity [exclude keywords](#)
- Working From Home [exclude keywords](#)

- Before you configure this section, you need to create the necessary categories you want under your WordPress admin panel, "Manage", "Categories".

**IMPORTANT!** Please use more generalized name for your category name and not too specific. Example, "make money" and NOT "make money on the internet easily". You get better chance of receiving new articles everyday this way.

- "Tick" all the categories that you would like to include to receive new articles to.

**IMPORTANT!** DO NOT TICK "Uncategorized" otherwise you will start receiving plenty of irrelevant articles to your blog.

- Click on "Update & Test" button so that your plugin can save your settings and publish a test article for your blog.
- Check your test article to make sure things are working fine. Test playing the video and audio, check the links to see if they are working.

- Check back your blog a few days later to see if you are receiving new articles. If you aren't, likelihood is your category names are too specific which do not fetch any article for you.

Otherwise it might be due to your niche. You may have chosen an uncommon niche.

## WP VideoTube Plugin Configuration

What is WP VideoTube plugin for?

This plugin will search and auto-embed YouTube videos in your blog daily.

- To configure WP VideoTube, simply go to "Manage", "WP VideoTube".
- Click on "Add New" to start adding a new Search Term. Please note that you are only allowed to add up to a maximum of 3 Search Terms. A Search Term allows you to configure the keywords for the YouTube video you desire. You may control the frequency of publishing too.
- You will see an "Edit Search Term" screen as follows whenever you add a new Search Term.

### Edit Search Term

<b>Search</b>	Videos	make money blogging
<small>Categories - start with uppercase letter, keywords - start with lowercase letter.</small>		
<b>Run every</b>	1	days <input checked="" type="checkbox"/> humanize
<b>Category</b>	Make Money Blogging	
<b>Comments</b>	yes	
<b>Post author</b>	admin	
<b>Post status</b>	Published	

[Edit Search Term](#)

- For "Search", select "Videos" and the keywords of the YouTube video you desire. Use lowercase for your keywords.

**IMPORTANT!** Use more generalized keywords and NOT specific

keywords.

- For "Run every", choose the frequency you wish to auto-publish your desired videos based on your keywords.
- For "Category", select the category your video post belongs to.
- For "Comments", choose "Yes" so that comments can be auto-displayed on your article.
- For "Post Status", choose "published" to have the new video article auto-published on your blog. Click "Edit Search Term".

**TIP!** For a start, I would recommend to add 3 all Search Terms for your WP VideoTube. Set your "Run every" as "6 hours", "8 hours" and "12 hours" respectively.

## **WP Auto Tagger Plugin Configuration**

What is WP Auto Tagger plugin for?

This plugin will automatically convert your keywords into tags so that your articles can be easily searched by your readers. In addition, your articles will also be interlinked with the tags generated.

No configuration is needed.

# Platinum SEO Plugin Configuration

What is Platinum SEO plugin for?

This plugin will automatically optimize all your articles so that they can be search engine friendly and possible rank better in search engine ranking.

- To configure Platinum SEO Plugin, simply go to "Settings", "Platinum SEO".
- You need only to fill up "Home Title", "Home Description" and "Home Keywords" fields as shown below. You may leave the rest of the settings as default since it works for me.

## Platinum SEO Plugin Options

---

This is version 1.2.3 | [FAQ](#) | [Feedback](#) | [Wordpress SEO options](#) | [Please Donate](#)

Click on option titles to get help!

<b>Automatically do 301 redirects for permalink changes:</b>	<input checked="" type="checkbox"/>
<b>Home Title:</b>	Quality Articles Site   Find All The Top Quality Money Making Articles On The Web Here
<b>Home Description:</b>	Find All The Top Quality Money Making Articles On The Web Here. All Carefully And Thoroughly Reviewed To Contain Only Quality Content.
<b>Home Keywords (comma separated):</b>	Affiliate Marketing, Blog Make Money, Extra Income From Home, Earn Money From Home, Earn Money Online, Easy Money Online, Google AdSense, Home Based Business, Home

## Google XML Sitemaps Plugin Configuration

What is Google XML Sitemaps plugin for?

This plugin will auto-generate a sitemaps.org compatible sitemap for your blog which is supported by Ask.com, Google, MSN Search and Yahoo periodically. You can then submit this sitemap to all webmaster tools of Google, MSN and Yahoo.

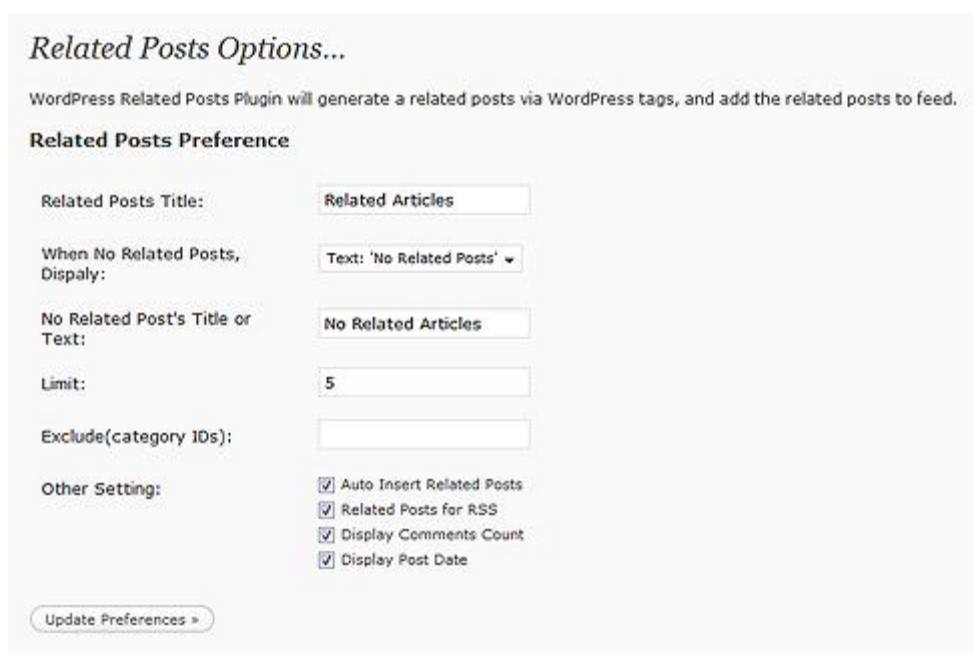

- For Google XML Sitemaps Plugin, there is nothing you need to configure except that you need to create your blog sitemap for the first time.
- To do so, simply go to "Settings", "XML-Sitemaps" and click "Create SiteMap".
- You may leave the rest of the options as default since it works for me.

## WordPress Related Posts Plugin Configuration

What is WP Related Posts plugin for?

You need to configure WordPress Related Posts plugin so that your articles can be interlinked based on similar tags. Interlinking contents in WordPress blog is favorable to search engines.

- To configure this plugin, go to "Settings", "WordPress Related Posts".

The screenshot shows the 'Related Posts Options...' configuration page for the WordPress Related Posts Plugin. It includes a description of the plugin's function and a 'Related Posts Preference' section with various settings.

*Related Posts Options...*

WordPress Related Posts Plugin will generate a related posts via WordPress tags, and add the related posts to feed.

**Related Posts Preference**

Related Posts Title:

When No Related Posts, Display:

No Related Post's Title or Text:

Limit:

Exclude(category IDs):

Other Setting:

- Auto Insert Related Posts
- Related Posts for RSS
- Display Comments Count
- Display Post Date

- For "Limit", you may like to start off with 5 so that each of your article will not be saturated with too much recommended/related articles. Your blog will not appear to be "over interlinked".
- Tick for "Auto Insert Related Posts", "Related Posts for RSS", "Display Comments Count" and "Display Post Date".

## OnlyWire Multi AutoSubmitter Plugin Configuration

Why do I need to register a OnlyWire account? What is the purpose of an OnlyWire Multi AutoSubmitter plugin?

A **OnlyWire account** will help to submit your article to a list of social bookmarking and networking sites with the push of a button.

A **OnlyWire Multi AutoSubmitter WordPress plugin** will automate the process for you by saving you the trouble of clicking the button to begin the submission.

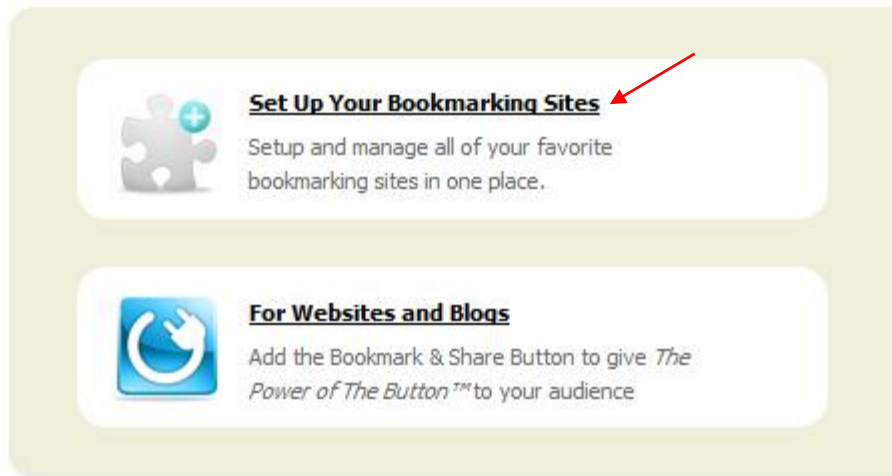

Instructions:

- Signup a FREE account with OnlyWire.com by visiting <http://onlywire.com>
- Login to your OnlyWire account.

Note: If you wish to use their FREE service, you need to update your account by including their "Bookmark & Share" button into your blog and verify it.

- Once you done so, go to "Set Up Your Bookmarking Sites".

## // Bookmark & Share Tools

- You will see a list of social bookmarking and networking sites, with empty username and password like below.

### // Enter Your Username and Password Below for the Websites That You Wish to Utilize.

You need to set up accounts with each website you wish to utilize. Once this is completed, OnlyWire will post content to all of the sites every time you bookmark a page using *The Power of The Button™*.  
**Your Privacy is Important to Us. OnlyWire Does Not Share Your Passwords With Anyone.**

 Ask	username password	 Bebo	username password	 Bibsonomy	username password
 Blinklist	qualityarticlesite *****	 Blue Dot	username password	 BookmarkSync	username password
 Cormotea	username password	 del.icio.us	qualityarticlesite *****	 Digg	qualityarticlesite *****
 Diigo	qualityarticlesite *****	 Facebook	username password	 Furl	username password

- Visit all the sites to register a FREE account. Sorry, you really have to do this but this is only one time (and for the first time).

After which, you need to enter the username and password into the respective account.

Important – Do not use “password” as the password as this will not be saved in your OnlyWire account.

- Next, on the same screen (as seen above), scroll down to the bottom of the screen, tick on “Yes, please send a test post to

Yes, please send a test post to new accounts to verify

Save My Logins

Is Your Favorite Bookmarking Site Not Listed? Let us know at [support@onlywire.com](mailto:support@onlywire.com)

new accounts to verify” and click “Save My Logins”.

- Go to your OnlyWire Homepage, you will expect to see the

results of your test post as below.

**Success** = Article has been successfully social bookmarked or posted.

**Failure** = Article has not been successfully posted. It might only be a glitch. Do another test to confirm again. Otherwise, check your username and password to make sure they are properly entered.

**Finalize** = Article has NOT been posted successfully as the social bookmarking site requires you to enter a verification code or

answer a question before they would publish your article.

You need to click on the "Finalize" link and go to the individual site to complete your submission process. Repeat this step for all every site that has "Finalize".

- Your last step is definitely to go back to your WordPress Admin Page, "Settings", "OnlyWire Submitter" page, fill in your OnlyWire login information accordingly. Click on "Save".

## OnlyWire Multi Autosubmitter

### Settings

Enter one or several OnlyWire accounts.

OnlyWire Username #1:	<input type="text" value="qualityarticlessite"/>
OnlyWire Password #1:	<input type="password" value="....."/>
OnlyWire Username #2:	<input type="text" value="qasaol"/>
OnlyWire Password #2:	<input type="password" value="....."/>
OnlyWire Username #3:	<input type="text"/>
OnlyWire Password #3:	<input type="password"/>
OnlyWire Username #4:	<input type="text"/>
OnlyWire Password #4:	<input type="password"/>
OnlyWire Username #5:	<input type="text"/>
OnlyWire Password #5:	<input type="password"/>
Chance to submit a post:	<input type="text" value="100%"/>

- You may like to return to your OnlyWire account in a few days time to see if everything is working properly.

- That's all.

## Getting Your New Articles Listed Through Pinging

- Each time when your blog auto-publish a new article, it is possible to get WordPress to update sites like Google to let them know that there is a new update.

This is very useful for getting your new content into the search engines as quickly as possible. All you need to do is to add the list of pinging servers into your WordPress admin panel.

- To do so, simply go to "Settings", "Writing" and add the following list to your "Update Services" field.

<http://rpc.pingomatic.com/>  
<http://pingler.com>  
<http://api.feedster.com/ping>

## Summary

Remember what you are following in this guide are only for the first time and only once is required. If you wish, check back your blog once a while to ensure that the mechanism is working fine and the way you like.

**IMPORTANT!** Do not insert any adsense ad into your brand new auto-blog immediately for a start so that it will not look like a MFA (Made For Adsense) and getting sandboxed immediately.

You may check back my main website for updates or progress on auto blogging.

<http://auto-blogging.com/>

For any question or comment, or if you would like to take a look of what questions others are asking, you may visit the following thread.
